SUMMARY

I am a Front-End Developer . I have a solid foundation in React, Tailwind CSS, JavaScript, Html & CSS and familiar with Node.js, Express MongoDB . I'm also a student of Computer Science and Engineering with a passion for coding. My Aim is to be a full-Stack Developer. I'm currently expanding my knowledge by learning Next.js and practicing problem solving to become a full-stack developer.

All Projects

1. Alternative product

Technologies Used: React, Express.js, MongoDB, TailwindCSS, and Firebase Authentication.

Feature: This website is primarily created for finding products. Users can add their own products, update, delete, modify them, and recommend other products. It includes an authentication system with JWT tokens and offers many additional features.
